Summer Smarts Math and Language Arts

Expand your elementary and middle school students' skills through a Summer Smarts program. At the beginning of a Summer Smarts program, students are assessed for placement in the academic continuum. They then set goals with their online teachers while students and parents receive weekly updates on progress.

Summer Smarts Math and Language Arts is an ungraded enrichment program that gives your K through 8th grade student a chance to review foundational skills to be prepared for the next grade level, accelerate, or catch up with his or her peers. These programs start with a pre-test to see where your child needs to focus and then he or she is prescribed just the right lessons to grasp needed concepts. Students will receive a weekly progress report and have daily access to math and language arts teachers for individual help.

Six Levels

- Math and Language Arts (K–2)
- Math (3–5)
- Language Arts (3–5)
- Math (6–8)
- Language Arts (6–8)
- Algebra Prep (8th grade)

Educational Technology Courses

Tuition: $350/Course

These programs, which are an add-on to the Summer Smarts programs, offer students in grades K–8 essential technology skills for their age. While focusing on technology skills in which all students are required to possess by the end of the 8th grade, these programs reinforce reading, language arts and math skills. If you wish to accelerate your child's current technology knowledge, it is suggested to place him or her in an advanced grade level program.

Courses

- Educational Technology – Kindergarten
- Educational Technology – 1st Grade
- Educational Technology – 2nd Grade
- Educational Technology – 3rd Grade
- Educational Technology – 4th Grade
- Educational Technology – 5th Grade
- Educational Technology – 6th Grade
- Educational Technology – 7th Grade
- Educational Technology – 8th Grade
